RICE UNIVERSITY / COMPUTER SCIENCE

GeniSys 2027

Call for submissions

Research posters & presentations

Spring 2027 | Rice University, Houston, Texas | Exact date: TBA

SUBMISSION DEADLINE **January 10, 2027**

Share your research, receive feedback, practice presenting to a broader audience, and meet researchers and potential collaborators across disciplines.

Who can submit: Undergraduate, master's and PhD students and postdoctoral researchers. Recent or published work, research in progress and research-oriented course projects are welcome.

Draft slides and posters are welcome. Submitted materials need not be final and may be refined before the workshop.

Venue: Ralph S. O'Connor Building for Engineering and Science, fifth-floor conference room.

RESEARCH THEMES

- **Efficient AI:** Algorithm design, agent systems, scalable training/inference, heterogeneous computing.
- **Connected systems:** Networks and infrastructure for distributed intelligence.
- **Sustainable computing:** Energy-aware, reliable, and secure systems.

Research posters

File format: PPTX
Recommended size: 36 x 48 in, portrait (91 x 122 cm, width x height).
Poster session: 4:00-5:00 pm

Submit a poster

Research presentations

File format: PPTX
Maximum 14 slides.
15-minute slots, including Q&A and transitions.

Submit a presentation

Presentation filename: Presentation_First_Lastname_Level.pptx
Poster filename: Poster_First_Lastname_Level.pptx
Replace First/Lastname with your name; Level: Undergrad, Master, PhD, or Postdoc.

Program: 9:00 am-5:00 pm | Central Time | Tentative Full schedule

We plan to select **up to 14 research talks**; career-stage allocation will reflect submissions.
Undergraduate and master's students are especially encouraged to submit.
Three invited speaker slots planned (45 minutes each); speaker names and topics TBA.

Hybrid participation is planned; remote poster arrangements will be announced.

ORGANIZERS

T. S. Eugene Ng | Yuke Wang | Jiarong Xing
