

Call for Research

Posters & undergraduate/master's presentations

Spring 2027 | Rice University, Houston, Texas

Exact workshop date to be announced

SUBMISSION DEADLINE

January 10, 2027

Share research, exchange ideas, and connect across AI, systems, and networking for a sustainable future.

Venue: Ralph S. O'Connor Building for Engineering and Science, fifth-floor conference room.

RESEARCH THEMES

- **Efficient AI:** AI algorithm design, agent systems, scalable training and inference, and heterogeneous computing.
- **Connected systems:** Networks and infrastructure for distributed intelligence.
- **Sustainable computing:** Energy-aware, reliable, and secure systems.

Research posters

Recent research and previously published work are welcome.

File format: PDF

Recommended size: 36 x 48 in, portrait (91 x 122 cm, width x height).

Poster session: 4:00-5:00 pm

[Submit a poster](#)

Undergraduate/master's presentations

File format: PPTX

Fewer than 15 slides (maximum 14).

Eight 15-minute slots, including Q&A and transitions: four in the morning and four in the afternoon.
